INDEPENDENT AUDITORS' REPORT

TO THE SHAREHOLDERS OF SOUTHERN SILVER EXPLORATION CORP.

Opinion

We have audited the consolidated financial statements of Southern Silver Exploration Corp. (the "Company"), which comprise:

- the consolidated statements of financial position as at April 30, 2021 and 2020;
- the consolidated statements comprehensive loss for the years then ended;
- the consolidated statements of changes in equity for the years then ended;
- the consolidated statements of cash flows for the years then ended; and
- the notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Company as at April 30, 2021 and 2020, and its consolidated financial performance and its consolidated cash flows for the years then ended in accordance with International Financial Reporting Standards ("IFRS").

Basis for Opinion

We conducted our audits in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the *Auditors' Responsibilities for the Audit of the Consolidated Financial Statemen*ts section of our report. We are independent of the Company in accordance with the ethical requirements that are relevant to our audit of the consolidated financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained in our audits is sufficient and appropriate to provide a basis for our opinion.

Other Information

Management is responsible for the other information. The other information comprises of the Management's Discussion and Analysis.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon. In connection with our audits of the consolidated financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in our audits or otherwise appears to be materially misstated.

We obtained the Management's Discussion and Analysis prior to the date of this auditors' report. If, based on the work we have performed, we conclude that there is a material misstatement, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with IFRS, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Company’s ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company’s financial reporting process.

Auditors’ Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors’ report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements. As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company’s internal control.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management’s use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company’s ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors’ report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors’ report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Company to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

The engagement partner on the audit resulting in this independent auditors' report is Kevin Yokichi Nishi.

1. Nature of Operations

Southern Silver Exploration Corp. (the "Company") is an exploration stage company incorporated under the laws of British Columbia, Canada. The Company's principal business activities include the acquisition, exploration, and development of natural resource properties for enhancement of value and disposition pursuant to sales agreements or development by way of third-party option and/or joint venture agreements. The Company's registered office is 1710 - 1177 West Hastings Street, Vancouver, British Columbia, Canada, V6E 2L3.

The business of exploring for minerals involves a high degree of risk and there can be no assurance that any of the Company's current or future exploration programs will result in profitable mining operations. The recoverability of amounts shown for mineral properties is dependent upon the discovery of economically recoverable reserves, the ability of the Company to obtain financing to complete their exploration and development, and establish future profitable operations, or realize proceeds from their sale. The carrying value of the Company's mineral properties does not reflect present or future value.

In 2020, the COVID-19 global health pandemic resulted in significant volatility and turmoil in world markets. While the negative economic impact of measures to contain the virus have been mitigated to an extent by fiscal and monetary stimulus, by measures taken to reopen world economies, and by the development and roll out of vaccines, the situation remains uncertain and its impact on the Company depends to a large extent on future developments and new information that may emerge regarding COVID-19, its variants and the pandemic, factors which are beyond the Company's control. Given the extent of the crisis, it is difficult to estimate the duration of the situation or its ultimate impact on the Company.

2. Basis of Preparation and Consolidation

These consolidated financial statements were prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") using historical cost, except for cash flow information and financial instruments measured at fair value. The financial statements of the Company consolidate entities controlled and uses the equity method to account for entities partially-owned by the Company as follows:

Entity	Country of Incorporation	Principal Activity
Southern Silver Holdings Limited ("SSHL")	British Virgin Islands	Holding company - 100% owned by the Company (Note 7)
Minera Plata del Sur S.A de C.V. ("MPS")	Mexico	Mineral exploration - 100% owned by SSHL
Southern Silver Projects Limited ("SSPL")	British Virgin Islands	Holding company - 100% owned by the Company
Exploraciones Magistral S.A de C.V.	Mexico	Mineral exploration - 100% owned by SSPL
Southern Silver Exploration Corp. (US)	United States of America	Mineral exploration - 100% owned by the Company
Exploraciones Minasol S.A de C.V.	Mexico	Mineral exploration - 100% owned by the Company

All inter-company transactions and balances have been eliminated upon consolidation. The Company's functional and presentation currency is the Canadian dollar. These consolidated financial statements were approved and authorized for issue by the Board of Directors on August 30, 2021.

3. Summary of Significant Accounting Policies

(a) Significant Accounting Estimates and Judgments

The preparation of consolidated financial statements in conformity with IFRS requires management to make estimates and judgments that affect amounts reported in the consolidated financial statements. Estimates and judgments are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances, and subject to measurement uncertainty. The effect on the consolidated financial statements of changes in such estimates in future reporting periods could be significant. Significant estimates and areas where judgment is applied that have significant effect on the amount recognized in the consolidated financial statements include:

Control

Management consolidates all subsidiaries and entities which it is determined that the Company controls. The determination of the acquirer in business acquisitions is subject to judgment and requires the Company to determine which party obtains control of the combining entities. Control is evaluated on the ability of the Company to direct the activities of the subsidiary or entity to derive variable returns and management uses judgment in determining whether control exists. Judgment is exercised in the evaluation of the variable returns and in determining the extent to which the Company has the ability to exercise its power to generate variable returns.

The assessment of whether an acquisition constitutes a business is also subject to judgment and requires the Company to review whether the acquired entity contains all three elements of a business, including inputs, processes and the ability to create output.

Fair value in a business combination

The determination of fair value of assets acquired requires management to make assumptions and estimates about future events. The assumptions and estimates with respect to determining the fair value of the assets acquired require judgment.

Going concern

The assessment of the Company's ability to continue as a going concern and to raise sufficient funds to pay for its ongoing operating expenditures, meet its liabilities for the ensuing year, and to fund planned and contractual exploration programs, involves significant judgment based on historical experience and other factors, including expectation of future events that are believed to be reasonable under the circumstances.

Impairment of long-lived assets

The carrying value of mineral property acquisition costs is reviewed each reporting period to determine whether there is any indication of impairment. The determination of the impairment involves the application of a number of significant judgments and estimates to certain variables including metal price trends, plans for properties, and the results of exploration and evaluation to date.

3. Summary of Significant Accounting Policies, continued

(a) Significant Accounting Estimates and Judgments, continued

Determination of, and provision for, reclamation and remediation obligations

The Company assesses its provision for asset retirement obligations on an annual basis or when new material information becomes available. Accounting for reclamation and remediation obligations requires management to make estimates of the future costs the Company will incur to complete the reclamation and remediation work required to comply with existing laws and regulations. Actual costs incurred may differ from those amounts estimated. Also, future changes to environmental laws and regulations could increase the extent of reclamation and remediation work required to be performed by the Company. Increases in future costs could materially impact the amounts charged to operations for reclamation and remediation.

Deferred taxes

The Company recognizes a deferred tax asset to the extent recovery is probable. Assessing the recoverability of deferred tax assets requires management to make significant estimates of future taxable profit against which deductible temporary differences and the carry-forward of unused tax credits and unused tax losses can be utilized. In addition, changes in tax laws could limit the ability of the Company to obtain tax deductions in future periods.

Share-based payments

Share-based payments are determined using the Black-Scholes option pricing model at the date of grant and are expensed to net loss over each award's vesting period. The Black-Scholes option pricing model utilizes subjective assumptions such as expected price volatility and expected life of the option. Changes in these input assumptions can significantly affect the fair value estimate.

Consideration that comprises common shares is fair valued on the date of issuance.

Mexican Value Added Tax

The recoverability of taxes receivable related to value added tax incurred in Mexico is dependent on various factors such as local policy, historical collectability and the general economic environment. Management uses all relevant facts to determine if the tax receivable is recoverable.

(b) Mineral Properties

All expenditures related to the acquisition of mineral properties are capitalized on a property-by-property basis, net of recoveries which are recorded when receivable, until these mineral properties are placed into commercial production, sold or abandoned. If commercial production is achieved from a mineral property, the related mineral properties are tested for impairment and reclassified to mineral property in production. If a mineral property is sold or abandoned, the related capitalized costs will be expensed to profit or loss in that period.

3. Summary of Significant Accounting Policies, continued

(b) Mineral Properties, continued

All expenditures related to the exploration and evaluation of mineral properties, net of recoveries which are recorded when receivable, are expensed to net loss in the period in which they are incurred.

From time to time, the Company may acquire or dispose of all or part of its mineral property interests under the terms of property option agreements. Options are exercisable entirely at the discretion of the optionee, and accordingly, option payments are recognized when paid or received. If recoveries are received and exceed the capitalized expenditures, the excess is reflected in profit or loss.

All capitalized mineral property costs are reviewed at each reporting date, on a property-by-property basis, to consider whether there are any conditions that may indicate impairment. When the carrying value of a property exceeds its net recoverable amount that may be estimated by quantifiable evidence of an economic geological resource or reserve, joint venture expenditure commitments or the Company's assessment of its ability to sell the property for an amount exceeding the carrying value, provision is made for the impairment in value. The amounts capitalized for mineral properties represent costs incurred to date less write-downs, and are not intended to reflect present or future values.

The Company recognizes an estimate of the liability associated with statutory, contractual, constructive or legal obligations associated with site closure and property retirement costs in the period in which the liability is incurred if a reasonable estimate of fair value can be made. The estimated fair value or present value of future cash flows is capitalized to the related mining acquisition assets with a corresponding increase in the rehabilitation provision in the period incurred. The capitalized amount will be depreciated on a unit-of-production basis over the estimated life of the ore reserve.

The amount of the provision will be increased each reporting period due to the passage of time and the amount of accretion is charged to profit or loss. The provision can also increase or decrease due to changes in regulatory requirements, discount rates, and assumptions regarding the amount and timing of future rehabilitation expenditures. Any changes are recorded directly to the related mining assets with a corresponding change to the rehabilitation provision. Actual rehabilitation expenditures incurred are charged against the rehabilitation provision to the extent of the liability recorded.

(c) Investment in associate

An associate is an entity over which the Company has significant influence and that is neither a subsidiary nor an interest in a joint venture. Significant influence is the power to participate in the financial and operating policy decisions of the investee, but is not control or joint control over those policies.

3. Summary of Significant Accounting Policies, continued

(c) Investment in associate, continued

The results, assets and liabilities of associates are incorporated using the equity method of accounting. Under the equity method, investments in associates are initially recognized in the consolidated statement of financial position at cost and adjusted thereafter to recognize the Company's share of the profit or loss and other comprehensive income (loss) of the associate.

When the Company's share of losses of an associate exceeds the Company's interest in that associate (which includes any long-term interests that, in substance, form part of the Company's net investment in the associate), the Company discontinues recognizing its share of further losses. Additional losses are recognized only to the extent that the Company has incurred legal or constructive obligations or made payments on behalf of that associate.

Any excess of the Company's share of the net fair value of the identifiable assets, liabilities and contingent liabilities over the cost of acquisition, after reassessment, is recognized immediately in profit or loss.

(d) Business Combinations

A business combination is defined as an acquisition of assets and liabilities that constitute a business. A business is an integrated set of activities and assets that is capable of being conducted and managed for the purpose of providing a return. A business also includes those assets and liabilities that do not necessarily have all the inputs and processes required to produce outputs, but can be integrated with the inputs and processes of the Company to create outputs. When acquiring a set of activities or assets in the exploration and development stage, which may not have outputs, the Company considers other factors to determine whether the set of activities or assets is a business.

Business combinations are accounted for using the acquisition method. Acquisitions that do not meet the definition of a business are accounted for using the asset acquisition method.

(e) Share Capital

Proceeds from the issue of units, consisting of common shares and share purchase warrants, are first allocated to common shares based on the quoted market value of the common shares at the time the units are priced, and the balance, if any, is allocated to the attached warrants. Share issue costs are netted against share proceeds prorated to common shares and share purchase warrants.

(f) Share-based Payments

Share-based payments for employees are measured at fair value of the instruments issued on the date of grant and amortized over the vesting period. Share-based payments for non-employees are measured at either the fair value of the goods or services received or the fair value of the equity instrument issued, if it is determined the fair value of the goods or services cannot be reliably measured, and are recorded on the date the goods or services are received.

3. Summary of Significant Accounting Policies, continued

(f) Share-based Payments, continued

The fair value of stock options is charged to profit or loss using the graded vesting method, with the offset credit to share-based payment reserve.

Consideration received on the exercise of stock options is recorded as share capital and the related fair value previously recorded is transferred from share-based payment reserve to share capital. Upon expiry, related fair value previously recorded is transferred from share-based payment reserve to deficit.

(g) Related Party Transactions

Parties are considered related if one party has the ability, directly or indirectly, to control the other party or exercise significant influence over the other party in making financial and operating decisions. Parties are also considered related if they are subject to common control. Related parties may be individuals or corporate entities. A transaction is considered a related party transaction when there is a transfer of resources or obligations between related parties.

(h) Foreign Currency Translation

Amounts recorded in foreign currency are translated into Canadian dollars as follows:

(i) Monetary assets and liabilities, at the rate of exchange in effect as at the reporting date;
(ii) Non-monetary assets and liabilities, at the exchange rates prevailing at the time of the acquisition of the assets or assumption of the liabilities; and
(iii) Revenues and expenses (excluding amortization, which is translated at the same rate as the related asset), at the exchange rates in effect on the date of the transaction.

Gains and losses arising from this translation of foreign currency are included in the determination of net loss.

(i) Income Taxes

The Company follows the asset and liability method of accounting for income taxes. Under this method, deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities, and their respective tax basis.

Deferred tax assets and liabilities are measured using enacted or substantively enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in profit or loss in the period that includes the enactment date.

3. Summary of Significant Accounting Policies, continued

(i) Income Taxes, continued

Deferred tax assets also result from unused tax losses carried forward, resource related tax pools and other deductions. A deferred tax asset is recognized for unused tax losses, tax credits and deductible temporary differences to the extent that it is probable that future taxable profits will be available against which they can be utilized. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

(j) Loss per Share

Basic loss per share is computed by dividing the net loss available to common shareholders by the weighted average number of shares outstanding during the reporting period. Diluted loss per share is computed similar to basic loss per share except that the weighted average shares outstanding are increased to include additional shares for the assumed exercise of stock options, warrants and similar instruments. It assumes that the proceeds of such exercise would be used to repurchase common shares at the average market price during the period. However, the calculation of diluted loss per share excludes the effects of various conversions and exercise of options, warrants and similar instruments that would be anti-dilutive.

(k) Financial Instruments

IFRS provide three different measurement categories for non-derivative financial assets – subsequently measured at amortized cost, fair value through profit or loss or fair value through other comprehensive income – while all non-derivative financial liabilities are classified as subsequently measured at amortized cost.

The category into which a financial asset is placed and the resultant accounting treatment is largely dependent on the nature of the business of the entity holding the financial asset. All financial instruments are initially recognized at fair value.

Financial assets

The Company initially recognizes financial assets on the trade date, which is the date that the Company becomes a party to the contractual provisions of the instrument. The Company derecognizes a financial asset when the contractual rights to the cash flows from the asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred. Any interest in such transferred financial assets that is created or retained by the Company is recognized as a separate asset or liability.

The Company classifies all of its financial assets as subsequently measured at amortized cost. All financial assets that do not meet the criteria to be recognized as subsequently measured at amortized cost or subsequently measured at fair value through other comprehensive income are classified as fair value through profit or loss.

3. Summary of Significant Accounting Policies, continued

(k) Financial Instruments, continued

Financial liabilities

The Company measures all of its financial liabilities as subsequently measured at amortized cost. Financial liabilities are recognized initially at fair value, net of transaction costs incurred and are subsequently measured at amortized cost. Any difference between the amounts originally received, net of transaction costs, and the redemption value is recognized in profit and loss over the period to maturity using the effective interest method.

Fair value

The Company uses the following hierarchy for determining and disclosing the fair value of financial instruments which are measured at fair value by valuation technique:

Level 1: Quoted (unadjusted) prices in active markets for identical assets or liabilities
Level 2: Other techniques for which all inputs which have a significant effect on the recorded fair value are observable, either directly or indirectly
Level 3: Techniques which use inputs which have a significant effect on the recorded fair value that are not based on observable market data.

Impairment of financial assets

At each reporting date the Company assesses whether there is any objective evidence that a financial asset or a group of financial assets is impaired. A financial asset or group of financial assets is deemed to be impaired if, and only if, there is objective evidence of impairment as a result of one or more events that has occurred after the initial recognition of the asset and that event has an impact on the estimated future cash flows of the financial asset or the group of financial assets.

4. Financial Instruments

The Company's financial instruments include: cash and other receivables which are classified as financial assets at amortized cost and accounts payable and accrued liabilities, due to related parties and asset acquisition payable, which are classified as financial liabilities at amortized cost. The carrying values of all of these instruments approximate their fair values due to the short period to maturity. The Company's financial instruments are exposed to certain financial risks, including interest rate risk, liquidity risk, currency risk, credit risk and other price risk. The Company's exposure to these risks and its methods of managing the risks are summarized as follows:

(i) Interest Rate Risk

Interest rate risk is the risk that future cash flows will fluctuate as a result of changes in market interest rates. The Company has limited exposure at April 30, 2021 to interest rate risk. Cash includes a cashable GIC term deposit of $3,000,000 (April 30, 2020 - $3,000,000), which earns fixed interest rate at 0.55% per annum.

4. Financial Instruments, continued

(ii) Liquidity Risk

Liquidity risk is the risk that the Company will be unable to meet financial obligations as they fall due. The Company's approach to managing liquidity risk is to provide reasonable assurance that it will have sufficient funds to meet liabilities when due by forecasting cash flows for operations, anticipated investing and financing activities and through management of its capital structure. As at April 30, 2021, all of the Company's financial liabilities are either due immediately or have contractual maturities of less than 90 days.

(iii) Credit Risk

Credit risk is the risk that a counterparty to a financial instrument will fail to discharge its contractual obligations. The Company is exposed to credit risk with respect to managing its cash and other receivables which mainly consist of amounts recoverable from acting as project operator for exploration at the Cerro Las Minitas property. The Company's risk management policies require significant cash deposits or any short-term investments be invested with Canadian chartered banks rated BBB or better, or commercial paper issuers R1/A2/P2 or higher. All investments must be less than one year in duration. The Company's maximum exposure to credit risk with respect to other receivables is $nil (2020 - $23,040).

(iv) Currency Risk

The Company is exposed to currency risk to the extent expenditures incurred, funds received and balances maintained by the Company are denominated in currencies other than the Canadian dollar (primarily US dollars and Mexican pesos). The Company does not manage currency risks through hedging or other currency management tools. As at April 30, 2021, cash totalling $96,185 (2020 - $5,014) was held in US dollars and cash totalling $1,684 (2020 - $nil) was held in Mexican Pesos; other receivables totalling $nil (2020 - $6,978) were held in US dollars and other receivables totalling $2,834 (2020 - $nil) were held in Mexican Pesos; accounts payable and accrued liabilities totalling $415,400 (2020 - $224,714) were payable in US dollars and $22,224 (2020 - $36,731) in Mexican Pesos and asset acquisition payable totalling $4,913,600 (2020 - $nil) was payable in US dollars.

Based on forecast exchange rate movements for the next twelve months, assuming all other variables remain constant, the Company considers its financial performance and cash flows would not be materially affected by a weakening or strengthening of the US dollar or Mexican peso.

(v) Other Price Risk

Other price risk is the risk that the future cash flows of a financial instrument will fluctuate due to changes in market prices, other than those arising from interest rate risk or foreign currency risk. The Company is not exposed to significant other price risk.

(Expressed in Canadian Dollars)

5. Capital Management

The Company's capital includes components of equity. The Company's objectives in managing its capital are to maintain the ability to continue as a going concern and to continue to explore the Company's mineral properties for the benefit of its stakeholders.

To effectively manage the Company's capital requirements, the Company has a planning and budgeting process in place setting out the expenditures required to meet its strategic goals. The Company compares actual expenses to budget on all exploration projects and overhead to manage costs, commitments and exploration activities.

As the Company is in the exploration stage, its operations have been substantially funded by the issuance of equity instruments and mineral property earn-in agreements. The Company will continue to rely on such funding depending upon market and economic conditions at the time. There have been no changes in the Company's approach to capital management during the year ended April 30, 2021.

6. Mineral Properties

Mineral property acquisition costs as at April 30, 2021 were:

	Cerro Las Minitas $	Oro $	El Sol $	Total $
Balance as at April 30, 2019	-	218,447	-	218,447
Additions, net	-	100,238	-	100,238
Balance as at April 30, 2020	-	318,685	-	318,685
Asset acquisition	32,904,741	-	-	32,904,741
Additions, net	32,096	106,767	132,200	271,063
Balance as at April 30, 2021	**32,936,837**	**425,452**	**132,200**	**33,494,489**

(a) Cerro Las Minitas - Durango, Mexico

The property consists of a fully-owned interest in twenty-five mineral concessions located in Durango, Mexico (Note 7). The Company has future and possible obligations as follows:

- On April 20, 2017, two contiguous concessions were acquired by staking. One of these claims is subject to a finder's fee whereby minimum periodic payments are due on a semi-annual basis accelerating from US $5,000 to US $25,000 over a ninety-six-month period and a 1% NSR with such periodic payments being credited to NSR payments. Subsequent to payment of US $5,000,000 in NSR payments the royalty is reduced to 0.5%.

- One additional concession may be acquired if the underlying owner can deliver registered title and by making a payment, excluding applicable local taxes, of US $200,000.

(Expressed in Canadian Dollars)

6. Mineral Properties, continued

(b) Oro - New Mexico, USA

The property consists of certain unpatented mining claims in the Eureka Mining District, Grant County, New Mexico, eight patented lode mining claims, which are adjacent to these claims, and surface rights to a contiguous property. The property is subject to a 2% NSR payable to the optionors whom have granted the Company an option to purchase the NSR at any time in 0.5% increments at US $500,000 for each increment.

Pursuant to a lease with option to purchase agreement dated May 1, 2011, as amended, the Company can earn a 100% interest in six unpatented lode mining claims also located in the Eureka Mining District, Grant County, New Mexico. Remaining lease payments are due as:

(i) US $30,000 annually from May 1, 2020 (paid) to May 1, 2024 (2021 – paid May 1, 2021); and
(ii) US $60,000 annually from May 1, 2025 to May 1, 2031.

The Company can purchase the property at any time by paying any amounts remaining under the lease, subject to a 1% NSR payable to the optionors, which terminates when aggregate payments thereunder equal US $500,000.

(c) El Sol - Durango, Mexico

During April 2020, the Company entered into an agreement to purchase the El Sol mineral claim located in Durango, Mexico. The claim is 63 hectares and is situated contiguous with Cerro Las Minitas. Payments, excluding applicable local taxes of 16%, are due as:

(i) US$100,000 on August 3, 2020 (paid);
(ii) US$100,000 on August 3, 2021 (paid August 3, 2021) and;
(iii) US$100,000 on February 3, 2022.

The property is subject to a 2% NSR payable to the optionor who has granted the Company an option to purchase the NSR at any time for US$1,000,000.

(d) Exploration and Evaluation Expenditures

Exploration and evaluation expenditures for the years ended April 30, 2021 and 2020 were:

	Cerro Las Minitas		Oro		El Sol		Total	
	$	$	$	$	$	$	$	$

6. Mineral Properties, continued

(e) Environmental

The Company is subject to the laws and regulations relating to environmental matters in all jurisdictions in which it operates, including provisions relating to property reclamation, discharge of hazardous material and other matters. The Company may also be held liable should environmental problems be discovered that were caused by former owners and operators of its properties and properties in which it has previously had an interest.

The Company conducts its mineral exploration activities in compliance with applicable environmental protection legislation. The Company is not aware of any existing environmental problems related to any of its current or former properties that may result in material liability to the Company.

Environmental legislation is becoming increasingly stringent and costs and expenses of regulatory compliance are increasing. The impact of new and future environmental legislation on the Company's operations may cause additional expenses and restrictions. If the restrictions adversely affect the scope of exploration and development on the mineral properties, the potential for production on the properties may be diminished or negated.

(f) Title to Mineral Properties

Title to mineral properties involves certain inherent risks due to the difficulties of determining the validity of certain claims as well as the potential for problems arising from the frequently ambiguous conveyance history of many mineral properties.

The Company has investigated title to its mineral property interests in accordance with industry standards for the current stage of exploration of such properties and, to the best of its knowledge, title to its properties is in good standing; however, these procedures do not guarantee the Company's title.

Property title may be subject to unregistered prior agreements or transfers and title may be affected by undetected defects.

(g) Realization of Assets

Realization of the Company's investment in mineral properties is dependent upon the establishment of legal ownership, the obtaining of permits, the satisfaction of governmental requirements, the attainment of successful production from the properties, or from the proceeds of their disposal.

The attainment of commercial production is in turn dependent upon the existence of economically recoverable reserves, the ability of the Company to obtain necessary financing to complete the development of the property interest, and upon future profitable production.

(Expressed in Canadian Dollars)

7. Investment in Associate / Asset Acquisition

Pursuant to an earn-in agreement completed in November 2016, Electrum Global Holdings L.P. ("Electrum") owned 60% of SSHL with the Company owning the remaining 40%. MPS, a wholly-owned subsidiary of SSHL, holds title to the Cerro Las Minitas property. As the Company retained a 40% interest and was able to exert significant influence, SSHL was considered to be an associate and accounted for its interest as an investment in an associate using the equity method.

On September 15, 2020, the Company closed a transaction to acquire Electrum's 60% interest thereby acquiring control of SSHL. As consideration for the acquisition, the Company must pay Electrum an aggregate US$15,000,000 in a combination of cash and common shares, of which US$7,993,597 has been paid and 7,553,123 common shares with a fair value of $4,121,616 have been issued. A loss on settlement of debt was recognized of $300,420 (2020 - $nil).

The remaining consideration of $4,913,600 (US$4,000,000) must be paid on or before September 15, 2021 as to US$2,000,000 in cash and US$2,000,000 in shares based on the greater of the prior 20-day volume weighted average trading price ("VWAP") and the Discounted Market Price ("DMP") of the shares. The Company has the option to pay all cash in lieu of shares. To secure the remaining payment, the Company has pledged to Electrum the shares representing Electrum's 60% interest in SSHL.

The transaction has been accounted for as an acquisition of assets and liabilities as it does not meet the definition of a business under IFRS 3. The remeasurement to fair value of the Company's existing interest and net identifiable assets (liabilities) acquired in the acquisition were as follows:

		April 30, 2021		**April 30, 2020**
Balance as at May 1,	$	4,571,121	$	4,315,120
Advances to associate		15,381		634,927
Share of net loss		(170,579)		(378,926)

Exploration and evaluation assets	$	32,904,741
	$	**33,084,943**

(Expressed in Canadian Dollars)

8. Related Party Balances and Transactions

Except as disclosed elsewhere, the Company entered into the following related party transactions:

(a) Pursuant to a service agreement between the Company and a private company controlled by a director and officer of the Company, the Company was charged as:

- $60,000 (2020 - $60,000) for office space and general administration services;
- $36,300 (2020 - $36,300) for professional services;
- $47,784 (2020 - $22,803) for consulting services;
- $149,005 (2020 - $177,520) for investor relations services;
- $81,180 (2020 - $8,460) for geological services;
- $27,485 (2020 - $86,656) for geological and professional services (charged to associate);
- $nil (2020 - $84,130) for corporate finance services; and
- $3,497 (2020 - $3,303) for the mark-up on out-of-pocket expenses.

Amounts payable as at April 30, 2021 were $29,732 (2020 - $31,077).

(b) Fees in the amount of $156,000 (2020 - $156,000) were charged by a company controlled by a director and officer of the Company. Amounts payable as at April 30, 2021 were $13,650 (2020 - $13,650).

(c) Fees in the amount of $118,479 (2020 - $73,000) were charged by a law firm controlled by a director and officer of the Company and included in professional fees, share issue costs, mineral property expenditures / acquisitions or charged to associate. Amounts payable as at April 30, 2021 were $12,118 (2020 - $9,856).

(d) Fees in the amount of $30,000 (2020 - $30,000) were charged by an officer of the Company for consulting services. Amounts payable as at April 30, 2021 were $2,625 (2020 - $2,625).

(e) Fees in the amount of $36,000 (2020 - $36,000) were charged by an officer of the Company for consulting services and included in consulting fees, mineral property expenditures or charged to associate. Amounts payable as at April 30, 2021 were $3,150 (2020 - $3,150).

(f) Fees in the amount of $nil (2020 - $3,000) were charged by a director of the Company for consulting services (charged to associate).

These transactions were in the normal course of operations and were measured at the fair value of the services rendered. Amounts due to related parties are unsecured, non-interest-bearing, and have no formal terms of repayment. The key management personnel of the Company are the directors and officers of the Company. The Company has no long-term employee or post-employment benefits. Compensation awarded to key management, included in (b), (d), (e) and (f) above, was:

	2021	**2020**
Short-term benefits	$ 222,000	$ 225,000
Share-based payments	2,563,396	580,047
Total	$ 2,785,396	$ 805,047

8. Related Party Balances and Transactions, continued

One executive officer is entitled to termination benefits in the event of a change of control equal to thirty-six months compensation. Upon a change of control, and assuming the triggering event took place on the last business day of the period end, the payment would be $468,000.

9. Share Capital

The authorized share capital of the Company consists of an unlimited number of common shares without par value.

(a) Equity Financings

Year ended April 30, 2021

On August 15, 2020, the Company closed a brokered private placement of 50,000,000 subscription receipts of the Company (each, a "Subscription Receipt") at a price of $0.20 per Subscription Receipt for gross proceeds of $10,000,000. On September 11, 2020, each Subscription Receipt was exchanged, for no additional consideration, into one unit of the Company. Each unit consists of one common share and one-half of one share purchase warrant, with each full warrant exercisable to purchase one additional common share at a price of $0.25 during the first year, increasing to $0.30 in year two and $0.35 in year three.

On August 15, 2020, the Company closed a non-brokered private placement of 19,047,620 Subscription Receipts (the "Additional Subscription Receipts") at a price of $0.21 per Additional Subscription Receipt for gross proceeds of $4,000,000. On September 11, 2020, each Additional Subscription Receipt was exchanged, for no additional consideration, into one unit of the Company. Each unit consists of one common share and one-half of one share purchase warrant, with each full warrant exercisable to purchase one additional common share at a price of $0.28 during the first year, increasing to $0.33 in year two and $0.38 in year three.

In connection with the brokered private placement, the Company issued 1,560,400 compensation options ("Compensation Options") and 1,189,600 corporate finance options (the "Corporate Finance Options"). Each Compensation Option and Corporate Finance Option entitles the holder to purchase one common share at a price of $0.20 for a period of three years (Note 9(e)).

The Company also issued 700,000 finder's units and 700,000 finder's warrants in connection with the brokered private placement and 504,000 finder's units and 504,000 finder's warrants in connection with the non-brokered private placement. Each unit and warrant have the same terms as contained in the respective private placements (Note 9(e)).

On September 11, 2020, the Company closed a non-brokered private placement of 1,200,000 units at a price of $0.38 per unit for gross proceeds of $456,000. Each unit consists of one common share and one share purchase warrant, with each warrant exercisable to purchase one additional common share at an exercise price of $0.50 per share for a period of three years.

(Expressed in Canadian Dollars)

9. Share Capital, continued

(a) Equity Financings, continued

Year ended April 30, 2020

On August 13, 2019, the Company closed the first tranche of a non-brokered private placement and issued 15,502,500 units at a price of $0.20 per unit for gross proceeds of $3,100,500. On September 4, 2019, the Company closed the final tranche of this private placement and issued 5,530,000 units at a price of $0.20 per unit for gross proceeds of $1,106,000. Each unit consisted of one common share of the Company and one common share purchase warrant whereby each warrant is exercisable to purchase one common share at an exercise price of $0.25 for a period of five years.

The Company also issued 861,525 finders' warrants, whereby each warrant is exercisable to purchase one common share at an exercise price of $0.25 for a period of five years (Note 9(e)).

(b) Share Purchase Warrants

Share purchase warrants outstanding as at April 30, 2021 were:

(c) Stock Options

The Company has a rolling stock option plan (the "Plan") that allows for the reservation of common shares issuable under the Plan to a maximum of 10% of the number of issued and outstanding common shares of the Company at any given time. The term of stock options granted under the Plan may not exceed ten years and the exercise price may not be less than the closing price of the Company's shares on the last business day immediately preceding the date of grant, less any permitted discount. On an annual basis, the Plan requires approval by the Company's shareholders and submission for regulatory review and acceptance.

On September 24, 2020, 9,500,000 fully-vested stock options were granted to directors, officers and consultants at an exercise price of $0.51 per share for a period of five years.

On October 19, 2020, the Company granted 100,000 stock options to a consultant exercisable for a period of five years at a price of $0.58 per share. The stock options vest as to 25% per quarter.

On February 11, 2021, 200,000 fully-vested stock options were granted to a consultant at an exercise price of $0.50 per share for a period of five years.

Weighted average exercise price		$0.40	$0.40
Weighted average remaining life in years		1.34	0.34

(e) Fair Value Determination

The weighted average fair value of stock options granted was $0.40 (2020 - $0.16), compensation options granted was $0.36 (2019 - $nil) and finders warrants issued was $0.33 (2020 - $0.19). Fair values were estimated using the Black-Scholes option pricing model with the following weighted average assumptions:

	2021			2020	
	Options	Compensation Options	Finders' Warrants	Options	Finders' Warrants
Risk-free interest rate	0.35%	0.31%	0.31%	1.03%	1.22%
Expected share price volatility	91.57%	83.49%	83.49%	91.89%	102.85%
Expected life (years)	5.00	3.00	3.00	4.77	5.00
Expected dividend yield	0.00%	0.00%	0.00%	0.00%	0.00%

(Expressed in Canadian Dollars)

9. Share Capital, continued

(e) Fair Value Determination, continued

The expected volatility assumptions have been developed taking into consideration historical volatility of the Company's share price. The total calculated fair value of share-based payments recognized was as follows:

	2021	2020
Consolidated Statements of Comprehensive Loss		
Directors and officers	$ 2,563,396	$ 580,047
Consultants	1,399,854	323,744
	3,963,250	903,791
Consolidated Statements of Changes in Equity		
Finders' warrants / units	1,570,935	167,503
Total	$ 5,534,185	$ 1,071,294

10. Income Tax

A reconciliation of the income tax charge computed at statutory rates to the reported loss before taxes is as follows:

	2021	2020
Income tax benefit at statutory rate of 27% (2020 - 27%)	$ 54,036	$ 659,701
Permanent differences	1,173,914	(346,551)
Temporary differences	119,735	64,849
Change in timing differences	2,921,993	17,801
Foreign exchange gains or losses	165,580	48,579
Adjustment attributable to income taxes of other countries	86,366	(6,306)
Unused tax losses and tax offsets not recognized	(4,521,624)	(438,073)
	$ -	$ -

The Company's unrecognized deductible temporary differences and unused tax losses for which no deferred tax asset is recognized consist of the following amounts:

	2021	2020
Non-capital losses	$ 33,986,783	$ 19,236,161
Capital losses	53,597	53,597
Share issue costs	1,115,514	345,948
Tax value over book value of mineral properties	4,957,555	5,378,786
Tax value over book value of equipment	26,139	26,139
Tax value over book value of income tax credits	1,534	1,534
	$ 40,141,122	$ 25,042,165

(Expressed in Canadian Dollars)

10. Income Tax, continued

The Company has approximately US$2,827,000 in available losses to carry forward indefinitely in unrecognized non-capital losses that do not expire and the Company has other approximate unrecognized non-capital losses that expire as follows:

	CDN $	Mexican Pesos
2021	-	38,451,000
2022	-	31,128,000
